70

White noise can soothe your nerves when you sleep

White noise has the effect of blocking or weakening other sounds, allowing you to fall asleep faster.

Next

How is your sleep environment?

Suitable

A little hot or cold

There's some light disrupting

You may have trouble falling asleep, wake up too early, or only get light sleep.

Not very quiet

Next

Are you suffering from
any of the following
conditions?

None. I'm healthy!
